Question Time

Where could Linking Method fail?

Memorizing Technical & Abstract stuff

How to Turn Abstract words into an image

1. What is the first image that comes to mind when I read this word? (Eg. GST)
2. Symbolization (Eg. Hot = Coffee)
3. Break it in to words (Eg. Catastrophic)
4. Sounding (Eg. Karma = car)

Seriously, Can you come up with an image for any word?

Consider this word : **ELECTROENCEPHALOGRAPHICALLY** .

I would break the word like this:

ELECTRO + ENCEPHALO+ GRAPHICALLY .

ELECTRO leads to **electricity** leads to **image of wire**

ENCEPHALO : Last part “ Phalo” has a sound of “File”. It leads to image of “ File”

GRAPHICALLY has a word “ Graph”, mathematics term. It leads to image of my mathematics professor .

Final image is : A HUGE wire wrapped around a HUGE File and the file is burning and my TINY mathematics professor is trying to pick it up.
